Material Safety Data Sheet

Material: 60009655 CAVASOL® W7 MCT (Monochlortriazinyl-Beta-Cyclodextrin Na-Salt)

Version: 1.3 (US)  Date of print: 03/14/2006  Date of last alteration: 11/29/2004

1  Product and company identification

1.1 Identification of the substance or preparation:
Commercial product name: CAVASOL® W7 MCT (Monochlortriazinyl-Beta-Cyclodextrin Na-Salt)
Use of substance / preparation:
Industrial.
Textile auxiliary agent.
All other areas of application to be agreed with the Application Engineering/ Technical Marketing Department of the manufacturer.

1.2 Company/undertaking identification:
Manufacturer/distributor:
Wacker Chemie AG
Hanns-Seidel-Platz 4
81737 München
Germany
Customer information:
WACKER FINE CHEMICALS
Tel (517)264-8165, Fax (517) 264-8795
Hours of operation:
Monday - Friday, 8 am to 5 pm (eastern standard time)
Corporate Website: www.wacker.com

Emergency telephone no. (24h):
(517) 264-8500
Transportation emergency:
(800) 424-9300 (CHEMTREC, USA)

This MSDS was prepared by the Regulatory Affairs and Product Safety Department (RAPS) of Wacker Chemical Corporation.

2  Composition/information on ingredients

2.1 Chemical characterization (substance):

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>997-19-8</td>
<td>Sodium carbonate</td>
<td>1.0 &lt;=5.0</td>
<td></td>
</tr>
</tbody>
</table>

Substances listed in the Subsections HAPS and California Proposition 65 Carcinogens / Reproductive Toxins that are not listed in Section 2 are only present at quantities below 0.1% or they are inextricably bound in the product.

3  Hazards identification

3.1 Hazards classifications
HMIS® rating (product as packaged):
Health: 1  Fire: 1  Reactivity: 0  PPE: E
Note: Respiratory protection is only recommended in the event that ventilation or engineering controls are unable to maintain exposures below recommended levels; or in the event of a spill or other emergency response situation. (HMIS codes are based on contact with the product as packaged and any hydrolysis by-products, if present.) Hazardous Materials Identification System and HMIS are registered trademarks of the National Paint and Coatings Association.

Canadian WHMIS Classification: None.

3.2 Emergency overview and potential hazards
This material is not hazardous under OSHA criteria. This material is not hazardous under WHMIS criteria.

Physical Hazards:
Nuisance dust.

Acute health effects
Route of entry or possible contact:
skin, inhalation (in case of dust formation), eyes, ingestion

Eye contact:
May cause slight eye irritation.

Skin contact:
No acute toxic effects are expected.

Inhalation:
No acute toxic effects are known.

Ingestion:
Not expected in industrial use.

Additional information on acute health effects:
See Sect. 16.1 "Additional information".

3.3 Further information:
Chronic health effects:
none known

Medical conditions which may be aggravated by exposure:
none known

Carcinogens/Reproductive toxins:
There are no carcinogenic ingredients present at or over 0.1% in this material. This material does not contain any reproductive toxins at or above OSHA or WHMIS reportable levels.

See Section 11 for Toxicological Information, if any.

4 First-aid measures

4.1 General information:
Get medical attention if irritation or other symptoms occur. Take a copy of the Safety Data Sheet when going for medical treatment. Before seeking medical attention remove contaminated clothing and shoes.

4.2 After inhalation:
If inhaled as dust, remove to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration.

4.3 After contact with the skin:
If contact with skin, immediately flush skin with plenty of water for at least 15 min.

4.4 After contact with the eyes:
If contact with eyes, immediately hold eyelids apart and flush with plenty of water for at least 15 min.

4.5 After swallowing:
For ingestion, if conscious, give several glasses of water but do not induce vomiting. If vomiting does occur, give additional fluids. Get medical attention if symptoms occur. Show label if possible.

5 Fire-fighting measures

5.1 Flammable properties:

Method
5.2 Fire and explosion hazards:
The product is a combustible organic dust and under special conditions dust explosion is possible. Electrostatic charging is possible.

5.3 Recommended extinguishing media:
water-spray, carbon dioxide, dry chemical or foam-type extinguishing media.

5.4 Unsuitable extinguishing media:
sharp water jet.

5.5 Special exposure hazards arising from the substance or preparation itself, combustion products, resulting gases:

5.6 Fire fighting procedures:
Fire fighters should wear full protective clothing including a self-contained breathing apparatus. Cool endangered containers with water.

6 Accidental release measures

6.1 Precautions:
Avoid dust formation. Do not breathe dust. Wear personal protection equipment (see section 8).
HAZWOPER PPE Level: D

6.2 Containment:
Prevent material from entering sewers or surface waters. Cover any spilled material in accordance with regulations to prevent dispersal by wind.
Spills of material which could reach surface waters must be reported to the United States Coast Guard National Response Center's toll free phone number (800) 424-8802.

6.3 Methods for cleaning up:
Take up mechanically and dispose of according to local/state/federal regulations.

7 Handling and storage

7.1 Handling
Precautions for safe handling:
Avoid dust formation.

Precautions against fire and explosion:
Observe the general rules for fire prevention. Danger of dust explosion with dry product. Take precautionary measures against dust explosion. Take precautionary measures against electrostatic charging. Keep away from sources of ignition and do not smoke.

7.2 Storage
Conditions for storage rooms and vessels:
Do not store in containers made of aluminum or other light metals.

Advice for storage of incompatible materials:
none known.

Further information for storage:
Protect against moisture.

8 Exposure controls and personal protection

8.1 Engineering controls
Ventilation:
Use with adequate ventilation.

Local exhaust:
Recommendation in case of dust formation: Local exhaust ventilation which meets the requirements of ANSI Z9.2 is recommended to control airborne contaminants at the point of use.
8.2 Associate substances with specific control parameters such as limit values
Maximum airborne concentrations at the workplace

</tbody>
</table>

Re Particulates not otherwise classified: The value is for particulate matter containing no asbestos and < 1% crystalline silica (ACGIH).

8.3 Personal protection equipment (PPE)
Respiratory protection:
Recommendation in case of dust formation: A NIOSH approved particulate respirator with a P95 or higher rating.
Hand protection:
Recommendation: Any liquid-tight rubber or vinyl gloves.
Eye protection:
Recommendation: Safety glasses with side shields or chemical safety goggles. Recommendation in case of dust formation: tight fitting chemical safety goggles.
Other protective clothing or equipment:
Additional protective clothing or equipment is not normally required.

8.4 General hygiene and protection measures:
Do not breathe dust/vapor/mist/gas/aerosol. Do not eat, drink or smoke when handling. Wash thoroughly after handling.

9 Physical and chemical properties

9.1 Appearance
Physical state / form......................: solid - powder
Colour..................................: white
Odour..................................: odourless

9.2 Safety parameters
Melting point / melting range...........: not applicable
Boiling point / boiling range..........: not applicable
Upper explosion limit (UEL)............: 80 g/m³
Vapour pressure.................: not applicable
Bulk density...................: 380 kg/m³
Water solubility / miscibility.......: 300 g/l at 25 °C (77 °F)
PH-Value............................: 9 - 11 (300 g/l H₂O)
Distribut. coeff. n-octanol/water....: < 0.000 (Log P₀W)
Viscosity (dynamic)..................: not applicable

9.3 Further information
Thermal decomposition..................: not determined
Median value ......................: < 20 µm (original)
Heating value ........................: 13 MJ/kg
Disturbed dust
Dust explosion class ..................: 1
Kst value..................: 133 m*bar/sec
Maximum explosion pressure ..........: 9.4 bar
Ignition temperature...............: 500 °C (932 °F)
Minimum ignition energy .............: > 1000 mJ without induction
Minimum ignition energy .............: > 1000 mJ with induction
Material: 60009655 CAVASOL® W7 MCT (Monochlortriazinyl-Beta-Cyclodextrin Na-Salt)

Version: 1.3 (US)      Date of print: 03/14/2006      Date of last alteration: 11/29/2004

10 Stability and reactivity

10.0 General information:
If stored and handled in accordance with standard industrial practices no hazardous reactions are known.

10.1 Conditions to avoid:
high temperatures.

10.2 Materials to avoid:
Reacts with: amines, lyes, oxidizing agents and acids.

10.3 Hazardous decomposition products:
none known.

10.4 Further information:
Hazardous polymerization cannot occur.
Conditions to avoid hazardous polymerization: none known

11 Toxicological information

11.1 General information:
Toxicological testing has been conducted with this material.

11.2 Toxicological data:
Acute toxicity (LD50/LC50-values relevant to classification):

According to current knowledge adverse effects on water purification plants are not expected.

- 12.4 Additional information

Other harmful effects

General information:

Prevent material from introduction into surface water and into soil. Only introduce into water purification plants in diluted state. No environmental problems expected if handled and treated in accordance with standard industrial practices and local regulations where applicable.

13 Disposal considerations

13.1 Product disposal

Recommendation:
Dispose of according to regulations by incineration in a special waste incinerator. Observe local/state/federal regulations.

13.2 Packaging disposal

Recommendation:
Completely discharge containers (no tear drops, no powder rest, scraped carefully). Containers may be recycled or re-used. Observe local/state/federal regulations. Uncleaned packaging should be treated with the same precautions as the material.

Recommended cleaning agent:
water.

14 Transport information

14.1 US DOT & CANADA TDG SURFACE

Valuation.........................: Not regulated for transport
14.2 Transport by sea IMDG-Code
Valuation........................: Not regulated for transport
Marine Pollutant...............: no

14.3 Air transport ICAO-TI/IATA-DGR
Valuation........................: Not regulated for transport

15 Regulatory information

15.1 U.S. Federal regulations

TSCA inventory status and TSCA information:
This material or its components are listed on or are in compliance with the requirements of the
TSCA Chemical Substance Inventory.

TSCA 12(b) Export Notification:
This material does not contain any TSCA 12(b) regulated chemicals.

CERCLA Regulated Chemicals:
This material does not contain any CERCLA regulated chemicals.

SARA 302 EHS Chemicals:
This material does not contain any SARA extremely hazardous substances.

SARA 311/312 Hazard Class:
This product does not present any SARA 311/312 hazards.

SARA 313 Chemicals:
This material does not contain any SARA 313 chemicals above de minimus levels.

HAPS:
This material does not contain any hazardous air pollutants.

15.2 U.S. State regulations

California Proposition 65 Carcinogens:
This material does not contain any chemicals known to the state of California to cause cancer.

California Proposition 65 Reproductive Toxins:
This material does not contain any chemicals known to the state of California to cause
reproductive effects.

Massachusetts Substance List:
This material contains no listed components.

New Jersey Right-to-Know Hazardous Substance List:
This material contains no listed components.

Pennsylvania Right-to-Know Hazardous Substance List:
This material contains no listed components.

15.3 Canadian regulations

This product has been classified in accordance with the Hazard criteria of the CPR and the MSDS
contains all the information required by the CPR.

WHMIS Hazard Classes:
None.

DSL Status:
This material or one or more of its components is not listed on the Canadian Domestic
Substances List.

Non-DSL Chemicals:

16 Other information

16.1 Additional information:

This Material Safety Data Sheet (MSDS) meets the requirements of the Federal OSHA Hazard Communication Standard (29 CFR 1910.1200). This product has been classified according to the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all of the information required by the CPR. This information relates to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is to the best of our knowledge and belief accurate and reliable as of the date compiled. However, no representation, warranty or guarantee expressed or implied, is made as to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to the suitability and completeness of such information for his own particular use. We do not accept liability for any loss or damage that may occur from the use of this information. Nothing herein shall be construed as a recommendation for uses which infringe valid patents or as extending a license under valid patents. This MSDS provides selected regulatory information on this product, including its components. This is not intended to include all regulations. It is the responsibility of the user to know and comply with all applicable rules, regulations and laws relating to the product being used.

16.2 Glossary of Terms:

- ACGIH - American Conference of Governmental Industrial Hygienists
- DOT - Department of Transportation
- hPa - Hectopascals
- mPa*s - Milli Pascal-Seconds
- OSHA - Occupational Safety and Health Administration
- PEL - Permissible Exposure Limit
- WHMIS - Canadian Workplace Hazardous Materials Identification System

Flash point determination methods

- ASTM D56: Tagliabue (Tag) closed cup
- ASTM D92, DIN 51776, ISO 2592: Cleveland open cup
- ASTM D93, DIN 51758, ISO 2719: Pensky-Martens closed cup
- ASTM D1278, DIN 55680, ISO 3679: Setashelf or Rapid closed cup
- DIN 51755: Abel-Pensky closed cup

Conversion table:

| Pressure: 1 hPa * 0.75 = 1 mm Hg = 1 Torr; 1 bar = 1000 hPa |
| Viscosity: 1 mPa*s = 1 Centipoise (Cp) |
